REGISTRATIONS ON KS-TRAIN ARE REQUIRED

Participants that need to attend any of our KDEM trainings will need to create a user account on www.train.org/ks to register. Using this site, participants can ensure that our office has access to their most up-to-date contact information.

Using TRAIN as our On-Line Learning Management System allows us to add trainings to participants' online transcript and issue training certificates through TRAIN that will stay on users' transcripts and will be available for participants to download or print as many times as needed.

For classes with prerequisites, participants are able to upload their Independent Study certificates from FEMA to also add them to their online transcripts on TRAIN. This allows us faster check-up for prerequisites and better information for users when certificates might be missing. Participants can also upload certificates issues by our Federal training partners.

Walk-in participants without prior registration on TRAIN will not be accepted; especially for classes that have prerequisites.

If you have questions about your KS-TRAIN user account or think you already have a user account but need help finding your username and/or password, please contact the KS-TRAIN Help Desk at kdhe.kstrain@ks.gov or 785-296-5655.

Need help managing your KS-TRAIN account?

TRAIN has several tutorials available: learn how to set up and update your KS-TRAIN User Profile, how to search for courses you want, and how to find certificates or withdraw from courses.
